# About Bibol

Bibol is the only company with truly 100% natural, food safe & handmade bamboo tableware. Combining the tradition of Vietnam in bamboo spinning and ecological technics, we have developed a sustainable and fair trade company.

In order to keep these traditions alive and stay true to our mission, we founded Bibol. We design and make ecological bamboo products. Bibol offers a full range of serving dishes for everyday use and entertainment. Our bowls are not only beautiful, they are useful.

Bibol products reflect the quality of human exchanges: organic and natural. To avoid any confusion with other bamboo products, ours are always signed, a guarantee of our quality. Bibol products are offered in an assortment of sizes and color: natural, eggshell, gloss or matte.

Our products are food safe: they can contain liquids, solids, hot (up to 158°F) and cold food. Handmade, hand wash! Use hot water, dish soap, rinse and wipe carefully after cleaning. Do not let them soak in the water, dry them right away with a soft dish towel. Do not air dry and keep them away from a dishwasher and microwave.

# Tchon
