SPRING - SUMMER
2024 Collection

SUPERIOR WEAVING QUALITY

Our tightly woven tablecloths have delicate patterns, showcasing an unparalleled level of refinement. This weaving, using a greater number of threads, not only provides greater resistance but also unmatched finesse in the patterns, great brightness, and a softness in the fabric to the touch.

100% LINEN

An ultimate natural material, less water-intensive than other fibers, linen is known for its durability. More challenging to weave than cotton, this fiber requires expertise and technical mastery to achieve both flexibility and shine.

EXCLUSIVE STAIN RESISTANT TREATMENT

This innovative stain-resistant treatment ensures easy and cost-effective use of linens in everyday life. Invisible to the eye and to the touch, Green Sweet provides effective and long-lasting protection against stains.

AVAILABLE IN COATED COTTON

Coated Cotton fabric is covered with a double layer of waterproof acrylic for easy everyday use: just a quick wipe with a sponge is all it takes!

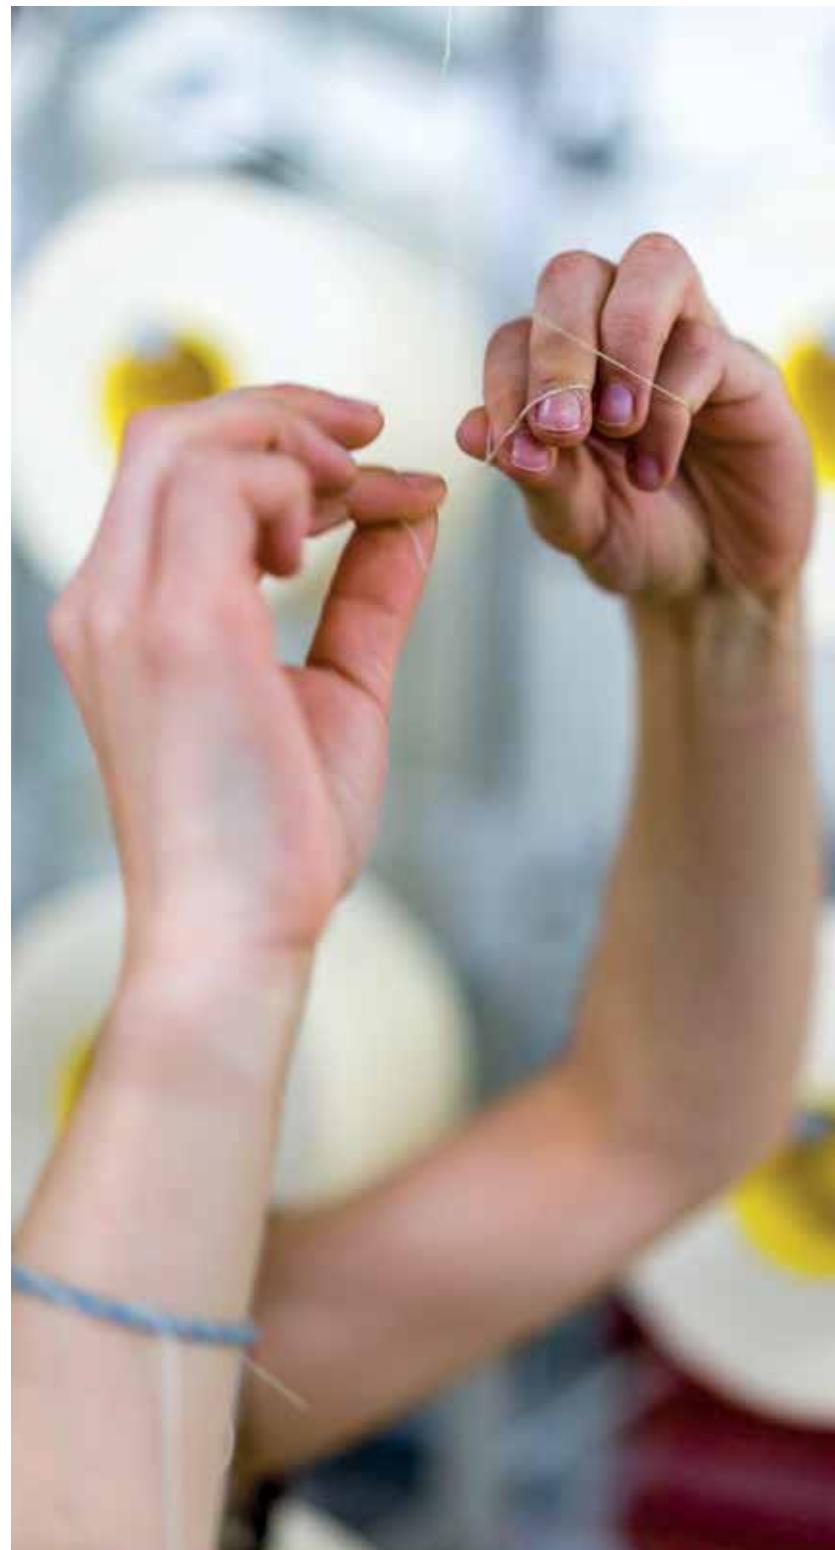

MADE-TO-MEASURE CREATIONS

Garnier Thiebaut offers you a wide selection of patterns that can be customized. Please contact our sales team to inquire about the feasibility, pricing, and ordering details for these special creations.

TWO-PLIED YARN

The use of plied yarn to weave our tablecloths ensures superior quality. Plied yarn is formed by twisting two threads together, making the fabric stronger with improved mechanical resistance, imparting greater brightness, and ensuring better product durability.

GARNIER THIEBAUT

1833

The Spring-Summer 2024 Collection
captures the beauty of nature in bloom.

For this new collection, our designers drew their inspiration from the magic of gardens.

True havens of peace, these spaces offer us brief immersions into the wildlife and beauty of our landscapes.

Encapsulating the freshness of spring is a sensory journey. The sounds, sights, and smells of the season resonate with us all.

A deep sense of contentment and wonder radiates in front of the lush vegetation, a source of relaxation and meditation.

The garden becomes a curator of moments wherein we may lose ourselves.

Since 1833, Garnier Thiebaut has been weaving timeless moments.

Paul de Montclos, Président de / CEO of Garnier Thiebaut
